

**Portable Gas Detection  
GMI Visa**

1. Visa hand held units – portable gas detection unit

- The confined space monitor designed by our customers.
- Single button use.
- Robust rubberised moulding providing high impact and shock resistance.
- Pump, diffusion or both together allowing pumped sample for pre-entry checking but diffusion operation when in confined space thus maximising battery life.
- Up to 5 gases using Plug 'n' Play sensors allowing easy change of gases for different applications.
- Very loud (95dBA) penetrating and distinctive audible alarm, together with high visibility large area visual alarm.

**Visa** The confined space monitor with up to 5 "plug n play" gas sensors. Single button operation, in a robust rubberised casing.

**Personal Surveyor** Compact personal monitor with the facility to detect up to four gases: 0 to 100% LEL flammable, 0 to 25% O2 and two toxic gases.

**PM2000** Small, single gas, maintenance free personal monitor available as an HS2, CO or O2 detector.

**PS2000** Small, single gas personal monitor used for the detection of flammable gases from 0% to 100% LEL.

Savcor's Service Division services all GMI gas detection units.

***Portable – Personnel Gas Detection Made Easy***

***Savcor supply a wide range portable and fixed gas detection units and equipment***
